

Jakub DORDA

PROFILE

Tech Lead / Team Lead with 8+ years in software engineering and 3.5+ years of leading engineers in regulated, high-impact environments. Strong focus on people leadership, delivery ownership, and stakeholder alignment, with hands-on experience coaching engineers, running delivery processes, and modernizing complex systems. Currently looking to transition into an Engineering Manager role, while open to leadership-heavy Team Lead positions with clear growth toward EM responsibilities. Most effective in environments that value clarity, accountability and growth mindset.

EXPERIENCE

SOFTWARE ENGINEERING TEAM LEAD

at *zvoove Germany GmbH*

10/24-03/26

- ◊ Led and coached a team of 5 engineers (1:1s, feedback, growth support),
- ◊ Owned delivery and execution across multiple initiatives in a regulated domain,
- ◊ Contributed to system architecture and design decisions,
- ◊ Interviewed candidates and optimized on-boarding speed,
- ◊ Coordinated cross-team dependencies and worked closely with Architect,
- ◊ Optimized Scrum processes and enforced best engineering practices.

Legal & Accounting Compliance Platform: Led delivery of a regulatory and time critical solution used by ~3,000 customers, enabling compliance with updated collective agreements; delivered under fixed regulatory deadlines with high correctness and auditability, across SaaS and on-prem deployments.

Time Management Platform Modernization: Led modernization of a core time-tracking product, delivering a modern, high-usability experience with real-time legacy erp synchronization; co-op across 5 teams, including mobile integration, modern google-sheets-like live sync and look.

TECH LEAD / SCRUM LEAD at *SINOVO GmbH*

08/22-10/24

- ◊ Led Scrum execution and delivery planning for mobile and web teams,
- ◊ Acted as primary delivery contact for stakeholders,
- ◊ Participated in IP planning and product roadmap discussions,
- ◊ Ran and optimized Scrum processes to improve delivery predictability.

Medical Platform (100k+ active users): Co-led a team of 10 engineers, delivering and maintaining a high-scale medical application in a regulated environment with strong audit and quality requirements.

US Market Expansion (FDA): Led a team of 4 engineers delivering a US-market application fork, supporting FDA regulatory submission requirements and ensuring compliance-related architecture changes.

SENIOR MOBILE DEVELOPER + SCRUM MASTER

at *Blue Veery GmbH*

11/20-08/22

- ◊ Delivered medical solutions using Xamarin/.NET while serving as Scrum Master to improve delivery predictability and team collaboration.
- ◊ Implemented process improvements and removal of blockers to increase sprint reliability and delivery quality.

NATIVE ANDROID/IOS & XAMARIN DEVELOPER

at *Tailored Mobile Solutions sp. z o.o.*

12/18-11/20

EDUCATION

MASTER IN MANAGEMENT. Faculty of Management, Management. *Wrocław University of Science and Technology.* **03/21-07/22**

BACHELOR OF COMPUTER SCIENCE. Faculty of Electronics, Computer Science. *Wrocław University of Science and Technology.* **10/16-06/20**

HARD SKILLS

- ◊ C#, .NET 6.0/8.0/10.0, .NET Framework 4.8, .NET Core,
- ◊ MAUI, Xamarin, native Android (Kotlin), native iOS (Swift)
- ◊ Microservices architecture, CQRS, DDD, Clean Architecture, Event buses,
- ◊ GNU/Linux, Docker, Kubernetes, CI/CD, Git,
- ◊ Azure DevOps, Jira, Microsoft Azure, AWS, OVH,
- ◊ Following best practices of ITIL v4, Agile, Scrum, Kanban
